Time Running out for RxDME2000 Upgrade offer for DMEFree Users

To celebrate our release of version 2.14 we are offering a limited time special to allow DMEFree users to upgrade to RxDME2000. The upgrade price is \$1900.00 that is \$600.00 off our regular price! This upgrade includes the RxDME2000 Module and all sub modules; AR, Reconcile, Automatic Rental Renewal, Imaging, Automatic Reconciliation, Webview server and 4 hours of support. Remember all of our software is multi-user at no extra charge and we can upgrade your data files so there is no 'starting from scratch' This promotion ends June 1st, 2006

Eligibility News

With the release of RxDME2000 2.14 and DMEFree 3.24 we have completed integrating Real-time 270/271 CMS Medicare Eligibility into our programs! This is an optional service, but an great opportunity to save huge amounts of time and reduce Medicare rejections. Just knowing if the patient has met their deductible upfront is worth its weight in gold! **And for the higher volume businesses** we have made an arrangement with the ME-First Medicare Eligibility software to allow unlimited batch Eligibility checks. Also integrated with your customer database, this is a must have tool. ME-First is running a May special so contact our office for more information.
